

# Sheffield Childcare Expansion CAMPAIGN

## Sponsorship naming rights

Sheffield Childcare Expansion submitted a grant to Future Ready Iowa for a total budget of \$2.5 Million to build a childcare facility that can accommodate up to 112 children. After conducting a city survey, it was determined that there is a childcare shortage in Sheffield. The need to create space for more childcare slots is detrimental to the workforce, growth and sustainability of the community.

Future Ready Iowa awarded Sukup Manufacturing a \$1.25M matching grant with the assistance of Sheffield area partners. We are currently seeking businesses in Franklin County and surrounding areas to help donate in-kind services and/or products to make this project a reality and dream come true for families in the area.
